Power for International Handball Championships at Medway Park

Medway Park in Gillingham has recently undergone an £11m transformation into an international standard multi-sport facility. This development has brought major improvements for the local community, as well as hosting major sporting events and elite training for Olympic and Paralympic teams.

In early January Medway Park staged the prestigious qualifiers for the Men's U21s Handball World Championships. Four international teams – GB, Hungary, Israel and the Netherlands competed for a place in the World Championships.

It was a fantastic opportunity to support Team GB competing on their home turf, a stone's throw away from Powerhire's Distribution Warehouse. And having previously worked with Event Companies supporting World Class Sports Events, the World Handball Championships on our doorstep was a perfect project to draw on our expertise in the provision of an unprecedented power rental solution.

Having built up a great working relationship over the years with an established well known Kent based Event's Company we were delighted to be working together again to provide a complete power package to stage this prestigious event at Medway Park.

We liaised together to meet the Centre's requirements due to the lack of three phase supply within the Complex. Our engineers delivered one of our 100kVA generators together with a fuel tank and the necessary cabling to connect with the Event Companies distribution panel.

Cable Hire

Generator Hire

Fuel Tank Hire

Load Bank Hire

Distribution Hire

The weeks hire duration was incredibly straight forward and ran extremely smoothly,

"From the first telephone call to the arrival of the invoice everyone was not just helpful but worked above and beyond the call of duty. The delivery was spot on and the driver could not be more helpful. Andy called to ensure everything was correct. Collection as requested. Please give all members of Power Hire a Raise", commented the client.
