

Powerhire Power Hire Package For Rochester Christmas Market

Now in its 4th year Rochester Christmas Market has grown in style, substance and reputation with most of its stallholders flourishing with it having started at the market from the beginning.

The 2015 Christmas Market was once again held in the iconic setting of Rochester Castle Gardens, overlooking the River Medway and just a few steps from the historic High Street. The market is truly spectacular offering unique gift ideas, value goodies and stocking fillers; as well as a range of tasty Christmas treats.

EASE STUDY

Even more luxury and unique Christmas stalls were present this year highlighting its continuing growth and success. It's a perfect free day out for all the family where eclectic entertainment, varied retailers, eateries and period architecture can be enjoyed.

This event was once again successfully organised by the Medway Events team. Powerhire have worked with them on previous occasions and provided the power hire package for last year's Christmas Market. Powerhire also operate a rental distribution depot just a stone throw away so it was an obvious choice that we would again provide the necessary power hire package to support this year's Market.

In September we liaised with their team to meet the event's requirements which we concluded would be exactly the same as the previous year. Powerhire engineers delivered the complete power hire package to site in late November consisting of 2 x 100kVA generators, 2 x 2000Ltrs fuel tanks and a portable fuel bowser together with the required rental cable for connection.

The four weeks power hire period was successfully faultless and we look forward to supporting the Rochester Christmas Market in 2016.
