

Powerhire Generator Hire for Lavish Festive Fanfare

Powerhire's growing relationship with an award-winning creative technical events production Company have put them top of the list when generator hire is required to power an event.

Having worked with them on numerous events throughout the last few years it was fantastic to once again be asked for generator hire power together with associated equipment for the festive events season.

Client

Creative Technical Events
Production Company.

Project in Brief

Generaotor hire for yearly
Lavish Festive Masquerade
Ball.

Unit B1 Colliery Business Park
Pike Road, Eythorne,
Dover, Kent, CT15 4FE

It was that time of year for this production Company to showcase their light, sound and technical expertise and pull in corporate Christmas revellers at the yearly Masquerade Christmas Party at Willow's Farm, St Albans.

This extravagant event is renowned for its stunning and dazzling recreation of classic Venice drawing the party goers into the world of the Commedia dell'Arte, twisted with the finest banquets and Baroque ballrooms during the opulent heights of Europe. With dramatic lighting in the impressive Palazzo Ballroom this production Company is really out to impress making this event hugely popular and very well attended with just under a thousand guests each night.

Have provided generator hire power at last year's event the specification had not changed and the hire equipment was scheduled in a couple of months prior to delivery. Generator hire was required not only for the lighting and technology throughout the venue, the state of the art dance floor and performances on stage but also for the after dinner casino, the adrenaline pumping dodgems and all the catering facilities.

During event set up Powerhire delivered 2 x 500kVA generators together with fuel tanks and rental cable to site which successfully provided uninterrupted generator hire power for this classic event throughout the 7 week hire period.
