Marquee Hire Specialist

## **Project in Brief**

Powerhire provided road towable generators for 15 summer events for Kent based Marquee Hire Company.

Unit B1 Colliery Business Park  
Pike Road, Eythorne,  
Dover, Kent, CT15 4FE

**www.powerhire.uk.com**

**They can also cater for a total event solution providing all the ancillary equipment required including the power to support it.**

Through a mutual events contact the owner of the Marquee Company contacted our Technical Sales Manager to ascertain Powerhire's availability in providing road towable generators throughout the entire summer season. He liaised with the owner to ascertain when power would be required for the larger events where they would be providing a total event solution.

Our rental coordinator scheduled the 15 road towable generators into the calendar. The sets ranged from 20kVA to 60kVA in relation to the power output required at each event.

We then ensured that every road towable generator was serviced and ready for installation for the Marquee Company to come and collect them as agreed.
