

# EVENT POWER FOR TWO FESTIVALS OVER TWO WEEKENDS AT ONE NORTH LONDON PARK

**CUSTOMER:** INDEPENDENT TEMPORARY POWER SUPPLIERS  
**LOCATION:** FINSBURY PARK, NORTH LONDON  
**PROJECT:** PROVIDE TEMPORARY EVENT POWER FOR TWO OF LONDON'S BEST MUSIC FESTIVALS

## Two great festivals, one north London Park!

Delighted to be working again with our great friends at Innovation Power providing 37 event generators from 20 to 500kVA along with 35 fuel tanks from 950 to 3000 litres to help power up two electrifying music events over two weekends at London's Finsbury Park.

Weekend one: - The Community Festival, in its third consecutive year at the park, is a one day festival showcasing the finest new indie music including Catfish and the Bottlemen and Two Door Cinema Club and this year had the pleasure of hosting indie royalty The Kooks.

Weekend two: - Starting out as primarily a rock and pop festival in 2005, The Wireless Festival has in recent years focused on hip-hop and other urban music. Headline acts since 2010 have included Jay-Z, Kanye West, Justin Timberlake, Rihanna, Bruno Mars and Stormzy.
